

# How to avoid carry-on fee Frontier?

## carry on baggage for frontier airlines

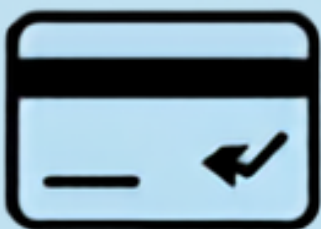

### Understand the Fee Structure.

- Frontier Airlines base fares do not include carry-on bags.
- Fees are typically charged one-way and vary based on booking channel (online, app, airport, etc.).
- Adding a carry-on after initial booking costs significantly more.

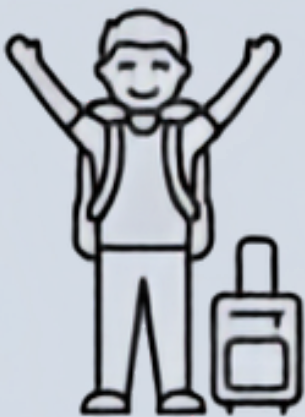

### Pack Smart: Size & Weight Limits.

- Max Carry-On Dimensions: 24" H x 16" W x 10" D (61 x 41 x 25 cm), including handles and wheels.
- Personal Item Dimensions: 14" H x 18" W x 8" D (36 x 46 x 20 cm). This is FREE.
- Ensure your bag fits in the overhead bin or under the seat.

### Book Early for Perks.

- Save the most by purchasing your carry-on allowance during the initial ticket booking on the website or app.
- Avoid last-minute airport bag fees, which are the highest.
- Consider fare bundles (e.g., the Works<sup>SM</sup> or the Perks<sup>SM</sup>) which may include carry-on bags.

### Choose your Allowance Wisely.

- Maximize your free personal item: Use a small backpack or tote that fits under the seat.
- Combine essentials: Pack heavy items in your checked bag if possible, and only carry necessities.
- Review the benefits: Paid carry-on includes priority boarding.
