Jersey City, NJ

Reliable battery solutions from JUDGE BATTERIES

Heavy-Duty • Automotive • Mobile Battery Support

Heavy-Duty Battery Solutions

Built for demanding truck and commercial vehicle needs

- Heavy-duty battery options for trucks and commercial vehicles
- Support for different battery sizes and vehicle requirements
- Practical replacement support when dependable starting power matters

Battery Options for Different Needs

A range of battery types for everyday and demanding applications

- Choose a battery suited to the vehicle and electrical demand
- Quality-focused replacement options
- Professional help with selecting the right fit

AGM Battery Technology

A strong option for vehicles with higher electrical demands

- Designed for start-stop and modern vehicle systems
- Useful where electrical accessories place greater demand on the battery
- Professional replacement helps ensure the correct battery fit

Premium Automotive Batteries

Dependable starting power for everyday driving

- Battery replacement for a wide range of passenger vehicles
- Options designed for reliable starting performance
- A practical solution when an aging battery needs replacement

Mobile Battery & Roadside Support

When your vehicle will not start, help can come to you.

- Convenient mobile battery replacement support
- Useful for unexpected battery problems on the road
- Focused on getting drivers back to their routine safely
