If you are planning a trip with Copa Airlines, understanding [copa baggage fees](#) is essential to avoid surprises at the airport. Baggage costs depend on your route, fare type, and number of bags, but the airline generally follows a structured and transparent baggage policy across its network.

Overview of Copa Baggage Fees

For most international routes, Copa Airlines allows passengers to bring at least one checked bag free of charge, especially in economy fares. However, copa baggage fees apply when you exceed your allowance or travel on basic fare types.

Typically, second checked bags can cost anywhere from \$30 to \$55 USD if purchased in advance, while third or additional bags may range from \$75 to \$150 USD or more, depending on the route and destination region. Paying at the airport is usually more expensive than pre-paying online.
